OBJECTIVE

Computer Engineering graduate with a passion for Data Analytics, Machine Learning, and SQL. Skilled in turning complex data into actionable insights through visualization and predictive modelling. Seeking a role in data analytics or data science to apply my skills and drive impactful decisions.

EDUCATION

Dec 2020 – June 2024	SSBT College of Engineering and Technology, Jalgaon B.E in computer Engineering	CGPA 8.43
Aug 2018 – Aug 2020	Shri Chhatrapati Shivaji junior science college, Jalgaon	71.88%

TECHNICAL SKILLS

- **Programming Languages:** C, Python
- **Data Analytics Tools:** Tableau, Power BI, Microsoft Excel (Intermediate)
- **Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Databases and SQL:** MySQL Database Management, Data Retrieval & Manipulation
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Development Environments:** Jupyter Notebook, Google Collab

INTERNSHIP

Jul 2024 – Jan 2025	Rubixe.com Data Science Consultant Intern • Conducted data analysis and provided insights to support decision-making. • Engaged in Proof of Concept (POC) projects and real-world client assignments. • Applied theoretical knowledge to practical data science challenges. Collaborated with project teams and received appreciation for contributions. • Developed and optimized data-driven solutions for business problems.
Aug 2023 – Oct 2023	AI internship -- AICTE and EDUNET: AI internship under the AICTE and Edunet Got very good learning of this Field .Gained hands- on experience in developing AI solutions for practical use cases.

ACADEMIC PROJECTS

Project 1: Customer Transaction Analysis

Analyzed customer spending patterns and trends. Cleaned and processed large transaction datasets. Applied ML models for segmentation & fraud detection. Built interactive dashboards for data visualization.

Project 2: Course Prerequisite Analysis and Skill Recommendation System.

Developed a course recommendation system using data analytics and machine learning to provide personalized course suggestions for students based on their skill set, academic background, and career goals.

CERTIFICATIONS

- **Certified Data Scientist Program (DataMites):** Comprehensive 8-months program covering key aspects of Data Science. Current progress: Completed 6 months with a focus on Statistics, Python, ML algorithms.
- **Programming with Python (Internshala):** Successfully completed a 6-week online Python training covering topics such as Python basics, OOPs & SQLite database connections.
- **AI models skill academy bootcamp:** Developing AI models Data collection, preprocessing.
- **Data Analytics and Visualization Job Simulation (Accenture):** Completed practical tasks in project understanding, data cleaning, modeling, data visualization, and client presentation.

AWARDS, ACHIEVEMENTS and ACTIVITIES

- Led a dynamic team during the successful execution of the event. Coordinated logistics, managed schedules, and facilitated seamless communication among team members in the **Milestone 2K23 (National Level Event)**.

STRENGTHS

-Team Player -Attention to Detail -Strong Analytical & Problem-Solving Skills -Effective Communication -Quick Learner & Adaptability
